## 11827 - Companion (S) MG

Data Sheet Created: 14-04-2026

**Companion (S) is a knife made of Swedish stainless steel, designed for versatile use in outdoor activities, hunting, and camping. It features a robust blade and an ergonomic handle with a friction grip and finger guard.**

**The blade is 2.5 mm thick and made from Swedish stainless steel (12C27), with a recycling rate above 80% and a hardness of 56.5 HRC. The profile-ground blade offers excellent sharpness and is easy to maintain, making the knife flexible for many tasks.**

**This knife is made in Mora, Sweden.**

- Outdoor knife
- TPE rubber handle
- Large handle
- Fingerguard
- Polymer sheath

## Basic Information

Article Number	11827
Nobb Number	44590753
Knife Length	219 mm
Blade Length	104 mm
Blade Thickness	2.5 mm
Product Length	233 mm
Product Width	45.0 mm
Product Height	37.0 mm
Net Weight	0.1184 kg
Blade Material	Stainless Steel
Steel	12C27
Hardness (HRC)	56.5
Grip Material	TPE
Grip Color	Black
Handle Color Core	
Sheath Material	Polymer Sheath
Sheath Color	MG
Statistical Number	82119200
Country of Origin	Sweden
Lead Time	12 Days

## Primary Packaging

Name	PCS
Quantity	1
Width	45.0 mm
Height	37.0 mm
Length	233.0 mm
Volume	0.0004 m <sup>3</sup>
Weight	0.1184 kg
EAN	7391846010128

## Secondary Packaging

Name	Display
Quantity	15
Width	132.0 mm
Height	260.0 mm
Length	248.0 mm
Volume	0.0085 m <sup>3</sup>
Weight	1.96 kg
EAN	7391846010135

# User Manual and Safety Information

Applies to: Knives, kitchen knives, outdoor knives, axes, and fire starters

## **Manufacturer: Morakniv AB**

### **General Information**

Our products are intended for both hobby and professional use in the kitchen, outdoor activities, hunting, crafts, and woodworking. Carefully read this user manual before use. Improper use may result in injury.

### **Safety Regulations**

General Safety Guidelines:

- Always use the product with caution.
- Keep out of reach of children.
- Use protective equipment when necessary, such as gloves, safety glasses, or an apron.
- This product is not a weapon and is not intended for violence, self-defense or harm against people or animals.

### **Recycling and Environment**

- Worn-out products should be recycled according to local regulations for each material.
- Packaging should be sorted according to local recycling guidelines.

### **Warranty and Liability**

- This product is manufactured to the highest standards. If defects occur during normal use, contact us for a warranty claim.
- We are not responsible for damages resulting from improper or hazardous use of the product.
- Read our warranty policy [here](#).

### **Storage and Transport**

- Always store knives and axes in a safe and protected place, such as a knife block, sheath, or with a blade cover.
- When transporting, ALWAYS use a sheath or blade cover to prevent injury to yourself, others, or equipment.
- Never leave knives or axes unprotected in backpacks or loose among other gear.
- You are responsible for complying with knife laws in your country. <https://lagen.nu/1988:254>

### **In Case of Accidents or Injuries**

- Keep a first-aid kit accessible when working with knives and axes.
- For cuts – rinse with clean water, apply pressure, and use a bandage if bleeding is heavy.
- For severe injuries – seek medical attention immediately.

## Knives & Axes

### Knife and Axe Safety:

- Always cut/chop away from your body.
- Keep the blade sharp – a dull blade requires more force and can cause accidents.
- Store knives in their sheath or a protective holder when not in use.
- Use a proper cutting board for kitchen knives to protect the edge.
- Axes should be used on a stable surface and always stored with a protective cover over the blade.

### Tips for Using Knives and Axes

- Use the right knife for the right purpose – kitchen, outdoor, and hunting knives are designed for different tasks.
- Avoid twisting the knife while cutting – this may damage both the knife and the user.
- Always chop with an axe on a stable surface and ensure the surrounding area is free from obstacles or other people.
- Prevent accidents by maintaining a firm and secure grip on the handle and keeping a safe distance from others.
- When carving or whittling, sit down and keep the knife and the object in front of or beside your body.

## Maintenance and Care – Knives & Axes

Proper handling and maintenance of your knife extend its lifespan and ensure safe use. Follow these tips for the best results.

### Rust Prevention:

- Always clean the product after use. For knives and axes, wipe them with a dry cloth after cleaning to prevent rust.
- Store knives and axes in a dry place, preferably in a protective sheath or case.
- Apply a thin layer of oil to the blade for extra protection, especially during long-term storage or in humid environments.

### Sharpening and Honing:

- Sharpen knives regularly to maintain a sharp edge – a dull knife is more dangerous than a sharp one.
- Use a whetstone, honing rod, or professional sharpener for the best results.

### Handle Care:

- Wooden handles should be oiled regularly to prevent drying and cracking.
- Plastic or rubber handles should be cleaned with mild soap and water – avoid strong chemicals.

## **Ferro Rod**

### **Safety When Using a Ferro Rod:**

- Keep flammable objects away while using – sparks can ignite combustible materials. Use only in a controlled environment.
- Practice using the fire starter in a safe environment before relying on it in the field.
- Use controlled force when striking the fire starter to avoid injuring hands and fingers.
- Direct sparks towards the intended tinder, never towards yourself, others, or unintended objects.
- Avoid using a fire starter in very dry forest areas where there is a high risk of wildfire – you are responsible for checking local fire regulations and restrictions.
- Store the fire starter in a dry place for optimal performance.
- Prop 65 Warning
- **WARNING:** The emissions from burning a fire starter and firewood can expose you to chemicals, including carbon monoxide, soot, and other combustion by-products, which are known to the State of California to cause cancer, birth defects, or other reproductive harm.
